

**Ivy Tech Community College of Indiana – Indianapolis  
Chancellor  
Opportunities and Challenges**

**Ensure That Students Achieve Their Educational Goals**

- Meet the needs of a growing region that serves urban and suburban students, including lifelong learners.
- Create and advocate an inspiring, unifying vision for faculty, staff, and students.
- Manage double-digit enrollment growth while ensuring that academic quality is continually maintained and enhanced.
- Make completion rates for the first-year, full-time cohort of students a first priority.
- Maintain and continue to build strong partnerships with IUPUI and other educational entities in the region, and increase opportunities for student-credit transfers.
- Increase dual-credit opportunities with all high schools in the region.
- Recruit and retain outstanding faculty/staff, and increase the number of full-time faculty.
- Maintain and enhance the quality academic, counseling, and other support services needed for the growing enrollment.

**Ensure That Indiana Citizens, Workforce, and Businesses are Globally Competitive**

- Continue to build the Central Indiana region's reputation for instructional innovation.
- Be a recognized leader in distance and on-line course delivery methods.
- Strengthen the linkages with regional business and industry in workforce development initiatives.
- Be a "go to" resource in the region for effective economic development strategies in partnership with external stakeholders.

**Ensure Optimal Quality and Efficiencies**

- Use the unique status of being the only Chancellor serving on the Ivy Tech President's Cabinet to further refine and enhance the relationship between regions and the statewide system.
- Utilize the Ivy Tech statewide strategic plan as a foundation for enhancing services provided by Ivy Tech Indianapolis and ensuring its stature as the leading region in the system.
- Establish Ivy Tech Indianapolis as the most innovative provider of normal course delivery by providing such options as multiple starting dates in a semester as well as financial aid and other services to support those dates.

**Ensure an Adequate and Sustainable Resource Base**

- Lead a \$25 million capital campaign for the Indianapolis region.
- Develop plans to meet the constant demand for additional capital expansion and provide the well planned infrastructure, support, and communications systems needed to maintain high quality and efficient program delivery.
- Promote alumni pride and participation.
