

**Associate Vice President for Information Technology
And Chief Information Officer**

Texas A&M University-Corpus Christi (A&M-Corpus Christi) is currently accepting applications and nominations for an Associate Vice President for Information Technology and Chief Information Officer (CIO).

The CIO reports to the Executive Vice President for Finance and Administration and is a key member of the university's leadership team. Responsibilities include oversight of Information Security, Application Technology Support (including academic and administrative systems), Classroom Technology Support (including media services and class/lab support), and Infrastructure Technology Services (including telecommunications, network services and help desk). The CIO develops and implements policies, practices and strategic decisions related to the development and integration of information technology resources and services.

Successful candidates will possess a minimum of a bachelor's degree (master's or doctorate preferred) in Computer Science or a related field; have extensive, progressively more responsible experience in directing and managing the activities of a large IT organization, preferably within a higher education environment; be knowledgeable of information resource standards and practices and current computing and telecommunications technologies; have the ability to successfully develop operating and capital budgets and implement short- and long-range strategic and financial plans for information technology; possess the collaborative skills to work effectively with faculty, staff and senior administrators to develop and implement appropriate use of technology resources; have excellent communication skills and a demonstrated commitment to delivering IT services of the highest quality.

A&M-Corpus Christi is a vibrant university with an enrollment of approximately 9,500 students and offers over 60 bachelors, masters and doctoral degrees. Founded in 1947, the university has experienced a period of sustained growth and is one of the fastest growing institutions in Texas. The university is located on a 240-acre island just eight miles from downtown Corpus Christi, and its modern facilities include over \$120 million in new construction in the past five years with an additional \$90 million of facilities currently in design or under construction.

A prospectus for this search with additional information about the university and its IT division, the major agenda for the new CIO, the specific qualifications for the position, and instructions for submitting applications or nominations may be found at www.academic-search.com under the tab for current searches. Those considering becoming candidates are urged to visit this web site before submitting application materials. In order to be assured full consideration, complete applications, including a thoughtful letter of interest, curriculum vitae, and a list of at least five

professional references with email addresses and telephone numbers must be received by November 16, 2009. This is a security sensitive position and employment is contingent upon a successful background investigation. Nominations, inquiries, and applications are treated confidentially and should be submitted electronically (MS Word or PDF) to:
